Northshore Yachts Ltd. Apprenticeship Prospectus 2011 Entry

**Boat Building Apprenticeships
Engineering Apprenticeships**

 SOUTHERLY
www.southerly.com

Learn with the builders of World leading variable draft cruising yachts and strive to achieve the **Northshore Certificate of Excellence** on completion of your apprenticeship.

Work across our range of boats from the Southerly 32 to the Southerly 57.

Boat Building Apprenticeships

Learn joinery and boat building skills using modern techniques and materials.

Gain additional skills in laminating (fibre glassing), engineering and electrics.

Develop skills to fit out a complete boat from the initial bulkheads in an empty hull, fitting furniture, completing custom options and modifications, to applying the finishing touches to a completed boat ready for handover to her new owner.

Engineering Apprenticeships

Learn about engineering disciplines used on boats, such as;

- Pumps and plumbing systems
- Engine, shaft and propeller fitting and alignment
- Electrical and electronic installations
- Basic laminating and woodwork

Develop knowledge and skills to enable you to engineer a complete boat, which is safe, reliable, and capable of sailing around the World.

Selection process

- 6th April 2011 - Open evening at Northshore Yachts, Itchenor
- April - May 2011 - Entrance examination to be held
- May 2011 - Interviews by invitation will take place
